Create a list of all the classes, ids and attributes used in carousel sequential.

List Of all the Classes:

1. **container:**
   The container class provides a responsive fixed width container.
2. **carousel slide:**

   Adds a CSS transition and animation effect when sliding from one item to the next.

3. **carousel- indicators:**
   Adds indicators for the carousel. These are the little dots at the bottom of each slide (which indicates how many slides there are in the carousel, and which slide the user are currently viewing)
4. **carousel-inner:**
   Adds slides to the carousel.
5. **item:**
   Specifies the content of each slide.
6. **carousel-control-prev:**
   Used together with. carousel -control-prev to create a "previous" button.
7. **carousel-control-next:**
   Used together with. carousel-control-next to create a "next" button.
8. **glyphicons:**
   Glyphicons can be used in text, buttons, toolbars, navigation, forms, etc.
9. **pagination:**
   If you have a web site with lots of pages, you may wish to add some sort of pagination to each page.

_____

ids and attributes used in carousel sequential:

id:

1. "my Carousel"

Attributes:

1. span
2. class
3. width
4. href
5. charset
6. src
7. type

_____
